SLB.B are not made available to the public but to the buyer only. Usually numbered. SLB.B are with the same constant design as SLB.A. These SL are prepared by order (against fee) from the IPS. The general rule allows any association, public organization as well as semi government bodies to place orders. Organizations purchase these SLs as a souvenir to members, clients or in occasion of a celebration - as a souvenir to the attendance. **Warning:** SLB.B are often offered in the market at relatively high prices. Which do not reflect real value. A comprehensive listing of the second category can be found in the Carmel Israel Catalogue. **Warning:** Beware of printing errors, strange overprints and "specimen" of such leaves.

As the production of SLB.B are subcontracted to a printer with no sufficient quality supervision such outstanding printings were made. **These are private make..**
